Press Release

Momentum Aviation Group Awarded GSA Schedule Contract to Provide Aviation Training and Operational Support Federal, State, and Local Government

Woodbridge, VA – April 6, 2015 – Momentum Aviation Group (MAG), a provider of manned and unmanned solutions and training, is pleased to announce the award of their General Services Administration (GSA) Security Schedule 84 Contract.

GSA Schedule Contracts are pre-competed, Federal Acquisition Regulation (FAR) compliant contracts that serve to streamline the government procurement process. The Award of MAG's GSA Schedule Contract is the result of an extensive evaluation process conducted by GSA, and serves as a testament to the company's capabilities, performance history, and customer satisfaction.

MAG currently offers aviation training and operational support through their GSA Security Schedule 84 Contract under Special Item Number (SIN) 426-6, Law Enforcement and Security Training. Federal, state, and local government agencies can utilize the company's GSA Schedule Contract to secure Cessna 337 or 206 aircraft training at pre-negotiated pricing, terms, and conditions.

"Customer service is a top priority at MAG. Our GSA Schedule Contract will relieve our customer agencies of some of the administrative burden associated with procurement process." Explained MAG Director of Contracts, James Perkins. "Given the nature of our business, we work extensively with the Department of Defense which uses GSA Schedule Contracts more than any other federal agency.

MAG GSA Schedule Contract Number GS-07F-116CA is valid through March 16, 2020 with exercise options through March of 2035. For more information on purchasing MAG's aviation services through the GSA Schedule Contract, please contact James Perkins, Director of Contracts at 703-376-8993 or jperkins@mag-ds.com.

About MAG

MAG is a leader in providing and enabling global situational awareness to make the world smaller and safer. Privately equity backed by Clairvest Group, MAG delivers manned aerial sensing (Airborne ISR), unmanned aerial sensing (UAS), aviation training, and aviation logistics services to federal, global, and commercial customers around the
